Aug - Dec 2025

Work Experience

UX Designer & Engineer | UPS (United Parcel Service)

Newark, NJ | Jan – May 2026

- Owned the end-to-end design for an enterprise capacity analytics platform used across 1,100+ sites: research, wireframing, and Figma prototypes, translated into a UPS-branded design system with reusable components for complex data workflows.
- Ran usability testing on the platform workflow, made adjustments based on findings and stakeholder feedbacks.
- Developed core personas from stakeholder interviews to guide feature prioritization across the platform's analytical modes.
- Partnered daily with backend, cloud, and data engineers in a Agile/Scrum team across 5 sprints, managing sprint work in Jira and translating design decisions directly into shipped, production-ready UI in Blazor, .NET, and HTML/CSS.

Experience Design Mentee | Avanade

New York, NY | Aug 2023 – May 2026

- Designed an AI-powered cybersecurity response system for educational institutions in Figma, applying design thinking and accessibility principles to a complex, multi-stakeholder product concept.
- Placed as a finalist at the Avanade International Fuel Conference against 750+ global participants, communicating design rationale and strategic vision to audiences

Customer Experience Intern | Allied Beverage Group

Elizabeth, NJ | Jun – Aug 2025

- Used Python and SQL to analyze delivery exception and operations metrics data, then designed an operations exception-tracking dashboard in Diver with heatmap tiles and color-coded alerts, surfacing delivery issues earlier in the resolution cycle and projected to save \$20K+ monthly.
- Built Salesforce customer scorecards for 1,000+ accounts, unifying cross-department metrics into a single account-health view.
- Analyzed 68 customer complaint cases in Excel and designed a risk-assessment framework routing accounts into five tiered response levels, contributing to a projected 18% improvement in resolution efficiency.
- Designed a Qualtrics customer survey and a companion customer booklet to support a company-wide research initiative.
- Conducted UX and market research supporting a \$1M+ new brand launch (Artet), translating customer insight into go-to-market recommendations and presenting to company and brand leadership.

Executive Design Editor | NJIT Vector Newspaper

Newark, NJ | Sept 2023 – May 2025

- Led the digital transformation of NJIT's student newspaper from print to web, redesigning navigation and newsletter flow using a web CMS platform and increasing readership by 21%.
- Managed a team of designers and editors across bi-weekly print issues laid out in InDesign, Illustrator, and Photoshop, the website, and a weekly email newsletter built in Mailchimp, owning editorial voice and content consistency.
- Conducted A/B testing, surveys, and behavioral analytics with 200+ readers using Google Analytics to track website metrics, improving user satisfaction by 7% through data-informed content strategy.

User Research Assistant | NJIT Social X Lab

Newark, NJ | Sept 2023 – Feb 2024

- Led mixed-methods UX research on how users adapt to new digital environments: 13 interviews, 250+ pages of qualitative data, using qualitative coding to surface 50+ behavioral patterns that shaped design recommendations.
- Ran an 80+ participant usability study using SUS and NPS scales, collected via Google Forms and analyzed with SPSS and quantitative analysis methods, delivering a structured evaluation report with actionable stakeholder findings.

Web, UX/UI & Graphic Developer | Barat Foundation

Newark, NJ | Nov 2022 – Mar 2023

- Rebuilt the organization's website, redesigning navigation and information architecture to improve accessibility and usability.
- Designed a cohesive brand identity system spanning web, print, and digital, using Illustrator for vector files of prints, designs, and sculptures as well as the brand identity system, and Photoshop for overall design and illustration work.
- Created posters and promotional material for social media in Canva, and edited social media video content in CapCut.
